# Final Year Project Report

**Hard Joshi**
2512658

A report submitted in part fulfilment of the degree of
BSc (Hons) in *Data Science and Artificial Intelligence*

Supervisor: Arish Siddiqui
CN6000

13 October 2025

# Abstract
This is where your abstract goes. Remember, it must be 500 words or less. It is NOT an introduction. It needs three elements: Purpose, Methodology, and Outcome. [cite: 2, 3]

# Acknowledgments

Here you can thank the people, including your supervisor, who have helped you with your project. [cite: 5]

# Contents

# Chapter 1: Introduction

# Chapter 2: Literature Review

# Chapter 3: Methodology

# Chapter 4: Results

# Chapter 5: Evaluation

# Chapter 6: Conclusion

# Chapter 6: Bibliography

## Appendix A - Code

Use code blocks for snippets. Do not dump 1000s of lines here; use appendices for that. [cite: 20, 21]

java static public void main(String[] args) { try { UIManager.setLookAndFeel(UIManager.getSystemLookAndFeelClassName()); } catch(Exception e) { e.printStackTrace(); } new WelcomeApp(); }

Listing 1: Java Example

# Appendix B - Evaluation Include an evaluation of both product and process. Be objective. Reflect on what worked and what did not.

# Appendix C - Conclusion Reflect on key findings, limitations, and future opportunities.

# Appendix D - Initial Project Proposal

## Appendix E - Final Project Proposal

## Appendix F - Application for Approval of Research Activities

## Appendix G - Client Consent Form
